

## **Downtown Development and Future Parking Needs Study**

The City of Raleigh, a municipal corporation organized and operating under the laws of the State of North Carolina, is issuing this RFP for a Downtown Development and Future Parking Needs Study. This RFP is being issued by the Parking Management Division of the Public Works Department.

The City is looking to maximize the availability of on-street parking, encourage TDM strategies and determine how parking can best support downtown economic development. The City also wants the current and projected parking spaces supply and demand assessed and a GIS based parking demand model provided.
